## ENGLAND

Trying Hard to Subdue the Boers Without Unnecessary Bloodshed.

**Scripps-McRae League.**  
London, Sept. 23.—The Transvaal situation is about the same as it was before the cabinet council yesterday. It is practically certain, however, that another note has been addressed to Kruger, and that it was an ultimatum. Capetown, Sept. 23.—The Dutch in the colony are restless, and it is feared that some decisive act of sympathy with the Transvaal will be taken. The British regard the attitude of Premier Schreiner with increasing suspicion.  
Berlin, Sept. 23.—A large number of former German soldiers have gone to the Transvaal in search of military adventure.

## BULL

Is Preparing for Events—Buller to Command African Forces.

**Scripps-McRae League.**  
London, Sept. 23.—It is officially announced that Sir Buller's Henry Buller, who will command the forces in South Africa, in the field, will soon go to South Africa. This is announced presumably as one of the results of the cabinet meeting today, and indicates that while the crisis is postponed England is preparing for eventualities.

### THE COMING CARNIVAL

Will be a Grand Affair for Guthrie and Oklahoma.  
The business men met last night and without any moon business got down to work. The Lery took the chair and a committee consisting of M. A. Clark, C. Renfro and C. F. Eisenhardt were appointed to solicit and collect money and push the carnival to the front.  
The Omaha Midway and Hagenbach's animal show, comprising twenty cars of scenery, performers, dancing girls, people of all nationalities, and the best trained animals in the world were engaged.  
This attraction alone will draw great crowds.  
The encampment of the Oklahoma militia, the reunion of the Oklahoma battalion and rough riders, the displays, exhibits and parades will make up a week of continuous entertainment.  
The railroads have made one rate and thousands of people who have never visited the capital city will take advantage of these rates during carnival week.

### NOTES.

Big races all week.  
Who will be queen?  
Subscribe to the carnival fund.  
The flower parade will be a beauty.  
Prepare to entertain visitors and friends.  
The carnival buttons will arrive Monday. Buy one.  
The bands of the territory will enter for prizes.  
\$100,000 will be left in Guthrie during carnival week.  
The advertisers and press agents start out next week.  
Our merchants will sell more goods carnival week than during the holidays.  
The united traveling men of Oklahoma will parade one day and in the evening.  
There is a paper mache decorator in the city and he is making some elegant floats for the merchants' parade.  
Charley White has sent off for an extra supply of diamonds, watches and silver with which to decorate his float. It will dazzle your eyes when on the march. He says the Oklahoma City parade will not be in when his float comes around the corner.

## EDDIE

The Tagal Friend, Writes Some Caustic Lines to the Post Master General.

**Scripps-McRae League.**  
Boston, Sept. 23.—Edward Atkinson is out with another number of The Anti-Imperialist, in which he addresses the post master general as follows: "If you intend again to induce the postmasters to violate the United States mail laws I suggest that an order be given to the postmaster at Boston, to the end that I may notify him the day and hour these documents will be mailed, so that if there is any interference with my personal rights I may take suitable measures to enforce them."

## BOERS

Refused a Loan of Five Hundred Thousand Pounds.

### Losing the Trade.

**Scripps-McRae League.**  
Quebec, Sept. 23.—The latest complaint here from Dawson City is that Canada is rapidly losing the Yukon trade, and the Americans control the business of Dawson. Of four hundred merchants in Dawson, all but six are Americans.

### PLENTY OF WATER.

The Council Tested the Water Supply Yesterday.  
The drillers of the new well have gone 125 feet and through 40 feet of rock, striking a vein of water that seems inexhaustible. Yesterday afternoon the council went down and tested the supply. For one hour the pumps were put to work and a flow of 720 gallons was made. The council came to the conclusion that 30 wells 125 feet deep would supply the entire city and give plenty of water for a good sewerage system, but no action will be taken until the drillers go farther down. If artesian water should shoot up 20 feet that would settle the well and water questions. One of the drillers thought he could catch artesian water at 1100 feet. The water at the present depth is pure and cold.

Hall's Catarrh Cure is the only positive catarrh cure known to the medical fraternity. Catarrh being a constitutional disease, it requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have no much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
